Speaker

MEEP 2025

KKL LUCERNE, 2 – 4 July

ANNEMIEK TER HEIJNE

Professor

Wageningen University &
Research

Sulfur oxidizing bacteria and their potential in
Microbial Electrochemical Systems
(M0601)

TALK TITLE

Sulfur oxidizing bacteria and their potential in Microbial Electrochemical Systems

ABOUT

Annemiek ter Heijne is a Professor specializing in (Bio)Recovery technology for Circular Economy at Wageningen University & Research, The Netherlands. Her work focuses on microbial electrochemical technologies, in particular on resource recovery from waste streams.
